### Commentary

IXP opens at 6708; 3 points below previous close. Trading was a bit volatile today during the first 90 minutes which then start to picking up from the lowest point at 6688. The index reached the support level at 6722 and continue to reach the resistance level at 6750 which then closed at 6742; 30 points above previous close. Closing above the support level 6722 is a positive. Next resistance at 6750 that could lead to 6800 and 6838. Failing to pass the resistance might bring us back to 6722 and 6650. Correction targets stay the same at 6345-6325.
