### Commentary

IXP opens at 6714; 3 points above previous close. The index managed to break resistance level at 6722 and reaching previous resistance at 6780 and closed above it at 6790; 78 points above previous close. The liquidity needed was spot on as it came to push the index above resistance level. Liquidity ratio was 53% purchase. Now we need to have a strong close above 6838 for two consecutive days to ensure reaching higher levels. Next resistance 6810 and 6838. Current support level is at 6722.
