Commentary

IXP opens at 6800; 10 points above previous close. The index managed to pass resistance level at 6810 but due to the relatively low trades it fell back to reach 6783 which then bounced to reach today's peak at 6823. Some profit taking occurred during the second half of the session pushed the index down to close at 6797; 7 points above previous close. We are still looking at breaking the resistance levels at 6810 and 6838 with high trades (+50 million KD) to reach 6980. Current support levels are at 6760, 6740, and 6711.
