### KSE Price Index Movement

### Commentary

IXP opens at 6949; 20 points less than previous close. Expected resistance at 6980 and 7008, support at 6934 and 6885. As expected, the index continued to fall breaking the support level and reaching the lowest point at 6896 and closed at 6919; 50 points below previous close. liquidity ratio at the end of the day shows 29% buy and 72% sell. The market is under selling pressure with less appetite for buying. The price index is still under the influence of the "Inert Stocks" that can make big "jumps" and "fall" in the index. Recently, REAM has been influencing the index in a bad way reducing it 20+ points further down.
