Commentary

IXP opens at 6800; same as previous close. Resistance and support remains the same between 6816 and 6766. The index reached the lowest at 6789 and closed at 6813; 12 points above previous close. Liquidity ratio at the end of the day shows 46% buy and 54% sell. Both value and volume have increased from yesterday's session reassuring the continuity of the positive performance. Staying above 6816 is very positive leading to 6895 and 7091 (previous peak).
