Commentary

IXP opens at 6797; 16 points below previous close. Resistance and support remains the same between 6816 and 6766. The market opens in the red area pushing the price index to reach the lowest at 6773 (-40) and closed at 6793; 20 points below previous close. Liquidity ratio at the end of the day shows 49% buy and 51% sell. Volume and trades have increased while volume decreased from last session which can be attribute to the buy pressure towards cheaper stocks with a main focus on Financial Services sector followed by Real Estate sector.
