Commentary

IXP opens at 6744; 5 points above previous close. There was a buying wave during the first 30 minutes led the index to reach 6777 which then followed by profit taking. The price index expected a resistance at 6754 failed to break it due to the weak and low trades which then fell to 6731 near the support level at 6722. The index bounced and closed at 6767; up by 27 points from previous close. In case of breaking the resistance level at 6754 with high and strong trades we might reach 6775 and then 6800. The support levels are at 6722 and 6680. In case of breaking all support levels, the index will fall to 6534 and then 6345-6325.
