Commentary

IXP opens at 6791; 2 points below previous close. Expected resistance at 6760 and support at 6740. The index reached the lowest at 6728 and closed at 6781; 12 points below previous close. Liquidity ratio at the end of the day shows 51% buy and 49% sell. Today the focus was on high and medium prices stocks, and that can be seen from the reduced volume and increased value. KFH was top traded value with over 3 million KD while Alimtiaz was top traded volume with over 12 million shares. IXW closed positive along with KSX 15 which can be considered as a positive indicator for the upcoming days.
