Commentary

IXP opens at 6899; 1 point below previous close. Expected resistance at 6934 → 6985 and support at 6868 → 6822. The index reached the lowest at 6886 and the highest at 6926 and closed at 6913; 13 points above previous close. Liquidity ratio at the end of the day shows 49% buy. Excellent closing with both value and volume are higher than previous close. Only one blue chip made it on "Top 5" most traded stocks "NBK", which indicates how the market is shifting towards the cheaper stocks. Top value traded stocks makes only 50% while the remaining was distributed amongst the market. IXP is moving in an up trend and if continues it will reach previous peak 7091.
