Commentary

IXP opens at 6822; same as previous close. Expected resistance at 6822 and support at 6804. The index reached the highest at 6837 and the lowest at 6787 and closed at 6832; 10 points above previous close. Liquidity ratio at the end of the day shows 55% buy and 45% sell. As expected, the buying pressure on blue chips has encouraged the investors to trade on small and medium stocks. The index closed above 6822 which emphasize that the market will continue the positive performance. We are expecting next to reach 6845 towards 6885/6895. Currently the banking sector is leading the market with KFH to be the leading bank with most traded value.
