Commentary

IXP opens at 6891; 23 points below previous close. Expected resistance at 6912 → 6936/6940 and support at 6885 → 6860/6853. The index reached the lowest at 6864 and the highest at 6824 and closed at 6908; 6 points below previous close. Liquidity ratio at the end of the day shows 44% buy. Volatility continues as the price index moved in the range of 60 points. Trading value, volume, and number of trades were all lower than previous day as the Eid holiday is coming next week. Some stocks are witnessing some sort of changing positions which could be a positive indicator for new jump in the market.
