Commentary

IXP opens at 7034; 2 points above previous close. Expected resistance 7100, and support at 6980. The selling pressure has increased specially in the financial services sector pushing the index further down reaching 7003 as we're approaching the deadline for financial statements disclosure date for the year 2016. National Consumer Holding Company yet again pushed the index 38 points up to reach 7054, and then closed at 7051; 19 points above previous close. The market is still volatile and unclear. liquidity ratio shows 33% buy and 67% sell.
