### Commentary

IXP opens at 6782; 15 points above previous close. The market was led by the good news announced today and pushed the index during the first hour to reach its peak at 6818 with low trades which then fell to 6766. The price index reached the target at 6810 but failed to go pass it due to the weak and low trades. The index bounced and closed at 6804; up by 37 points from previous close. We're still waiting to pass 6810 with strong trades to reach 6838 and then 6877 and 6980. The support levels are at 6722 and 6680. In case of breaking all support levels, the index will fall to 6534 and then 6345-6325.
