Commentary

IXP opens at 6646; 5 points below previous close, breaking the support level at 6650 which then continued to break the support level at 6600 reaching the lowest point today at 6575 (-76 points below the previous close). From the lowest point the index corrected 136 points passing the resistance at 6680 and closed at 6711; 59 points above previous close. Today's closing was a positive indicator that could be considered as the end of the correction. Next resistance at 6750 that could lead to 6800 and 6838. Failing to pass the resistance might bring us back to 6722 and 6650. Correction targets stay the same at 6345-6325.
